PROFESSIONAL SUMMARY

I'm a game developer with a strong computer science background, specializing in implementing core gameplay mechanics with Unity and Unreal Engine. My passion is creating engaging worlds that captivate players and inspire new creators.

EDUCATION

Masters of Science - Computer Science **Jan 2026 - May 2028 (Expected)**

Khoury College of Computer Sciences, Northeastern University, Boston, Massachusetts, USA

Bachelor of Science - Information Technology **Aug 2022 - Jun 2025**

SVKM's Narsee Monjee College of Commerce and Economics, Vile Parle, Mumbai, Maharashtra, India ● **CGPA: 3.6**

WORK EXPERIENCE

Media Services Technician **Jan 2026 - Present**

Northeastern University, Boston, MA

- Operate lighting, audio, and video systems for live events, managing sound boards, microphones, and projection setups.
- Troubleshoot technical issues in real time, coordinating with ITS staff, House Managers, and Stage Managers.
- Program and run light boards to create dynamic lighting designs for performances and university events.

Game Programmer **Jun 2023 - Nov 2025**

Freelance, Remote

- Developed game mechanics in Unity (C#) and Unreal Engine (C++/Blueprints) for 45+ clients across 90+ projects.
- Delivered end-to-end gameplay systems including physics, AI, and UI, sourced through private Discord communities.
- Managed full project lifecycles independently, handling client scoping, iterative development, and final delivery.

Member (Technical Dept.) **Sep 2022 - Mar 2023**

NM Arthashastra, Mumbai, India

- Built and maintained the festival website using WordPress for NM College's annual inter-collegiate academic festival featuring 27+ events across multiple domains.
- Collaborated with a 50+ member organizing team to deliver a multi-day festival drawing participation from colleges across Mumbai and nationally.
- Supported technical operations including event logistics and digital infrastructure for competitions, speaker sessions, and workshops.

PROJECTS

Pokémon Bushido **Aug 2021**

- Pokémon Bushido is a fan-made game set in a feudal Japan-inspired region, where players train Pokémon to become a Kenshi, battling rival clans and dark forces in a unique samurai-themed adventure.

Pokémon Splice **Aug 2020**

- Pokémon Splice is a fan-made game where you're a research assistant helping Professor Cypress discover new Pokémon forms, featuring a unique, type-changing starter and a branching story.

CareerPath AI **Nov 2025**

- A 'vibe coding' experiment built in 3 days with Gemini 3 Pro. This AI counselor generates hyper-personalized career roadmaps and realistic 'day-in-the-life' visualizations to help users find their ideal career.
