PROFESSIONAL SUMMARY

I'm a game developer with a strong computer science background, specializing in implementing core gameplay mechanics with Unity and Unreal Engine. My passion is creating engaging worlds that captivate players and inspire new creators.

WORK EXPERIENCE

Freelance Game Developer **Jun 2023 - Nov 2025**

Various Clients

- Responsibility of developing game mechanics in Unity (C#) and Unreal Engine (C++ and Blueprints).
- Worked on 90+ different projects for 45+ different clients from different private Discord servers.

PROJECTS

Pokémon Bushido **Aug 2021**

- Pokémon Bushido is a fan-made game set in a feudal Japan-inspired region, where players train Pokémon to become a Kenshi, battling rival clans and dark forces in a unique samurai-themed adventure.

Pokémon Splice **Aug 2020**

- Pokémon Splice is a fan-made game where you're a research assistant helping Professor Cypress discover new Pokémon forms, featuring a unique, type-changing starter and a branching story.

CareerPath AI **Nov 2025**

- A 'vibe coding' experiment built in 3 days with Gemini 3 Pro. This AI counselor generates hyper-personalized career roadmaps and realistic 'day-in-the-life' visualizations to help users find their ideal career.
